

ANOSPEC[®]

Single-Use Anoscope with Integrated LED Light Source

obp[™]
simple, bright ideas.

obp's **ANOSPEC** is a single-use anoscope with integrated LED light source. This ready-to-use device eliminates the time and expense of reprocessing and reduces the risk of cross-contamination in the medical setting by making rechargeable and plug-in light sources obsolete.

ANOSPEC is designed to aid in the examination of the anus to screen, diagnose, evaluate, and treat problems of the anal canal. **ANOSPEC** is ideal for diagnostic and therapeutic anoscopy procedures. **ANOSPEC** is the most trusted brand of pre-lit single-use anoscopes worldwide.

ILLUMINATE THE EVERYDAY

Sometimes unassuming ideas, opportunities hidden in plain sight, can change everything. Those ideas capture our imagination and drive us to take what was once commonplace and make it indispensable. As the leading global developer of single-use, self-contained, illuminating medical devices, we integrate light with device — making them one — creating effective and simplified single-use solutions. Our innovative products are used in more than 8,000 physician offices, surgery centers and hospitals throughout the U.S., as well as healthcare facilities worldwide. **At obp, we illuminate the everyday.**

PRODUCT FEATURES

- Disposable, single-use device reduces risk of cross-contamination
- Each ANOSPEC comes ready for use with an integrated ultra-bright LED light source and obturator
- No assembly required and no additional parts needed
- High powered, battery-operated LED light source can produce peak light for 30+ minutes
- LED light source generates no damaging heat
- The device's clear material allows for 360 degree visibility

THINK YOUR CURRENT LIGHT SOURCE IS CLEAN?

Think again. There are bacteria on 86% of instrument handles that are disinfected and designated 'ready for use' in hospital settings. (Journal of Hospital Infection)
